

Primea: A Masterpiece in Design and Innovation

Saeco, the world leader in automatic espresso machines, offers you an ultra automatic machine producing maximum taste with a bold and impressive statement. Thanks to superior innovations in design and technology, the Primea line prepares espresso with perfect crema, aroma and flavor every time. Prepare every type of coffee to appeal to your senses, such as espresso, cappuccino, latte macchiato and many more. The Primea line combines exclusive technology with top of the line style and sophistication.

The Saeco Advantage:

- **Advanced Display Panels:** A large color touch screen with sensitive touch technology or a LCD display screen with click-wheel technology both allow you to easily operate and program your machine.
- **Touch2Cappuccino®:** Prepare two cappuccinos with just one touch with the built-in Cappuccinatore.
- **Saeco Brewing System (SBS):** Make an infinite variety of coffees from one machine with just the twist of a dial.
- **Cup Illumination:** A soft light will turn off and on with just the touch of a button to spotlight the drink being brewed.
